

Angel and Cordova (Dova) were both adopted from the Franklin County Humane Society. Angel came from a high kill shelter in North Carolina and Dova was rescued from the Franklin County pound.

Hello everyone! We just wanted to share an update on Angel and Cordova. They are doing great together.

I am trying to catch a good picture of them kissing -- they always stop when I get the camera out. I did catch these pictures of them cuddling - aren't they too cute! We are so happy they are a part of our family, and thank you guys for everything you do for the animals you save.
