

The Chocolate Puppies were found stuffed in a plastic storage box with a closed lid at a Burnt Chimney dumpster the last week of January. The man who found them took them home for the night and the next day his wife looked for help. Diane Novak of www.barncatbuddies.org called us and we said to have them bring the pups right in.

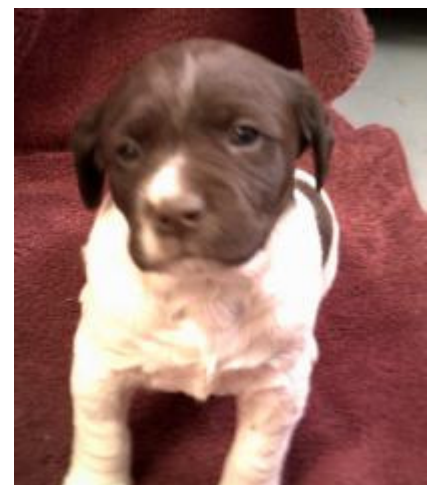

The 8 Australian Shepherd mix puppies were checked out and given shots, flea treatment and deworming by Planned Pethood Supervising Veterinarian Dr. MaryBeth Chaconas and staff (Terri Bentley, LVT and Vet Assistants Stephanie Dickenson and Becky Davis). The staff gave the pups Chocolate names as 5 of the pups were chocolate merle and one solid chocolate.

The Chocolate Puppies were named Godiva, Ghiradelli, Toblerone, Russell Stover, Goobers, Whitman, Willy Wonka and Chokito.
Thank you to everyone who helped to rescue them.

Then the pups were off to their two week quarantine at Wendy Smith's home. Leah (in photos) has been helping to care for them. Rescue Coordinator Anita Scott took photos and posted them on our website and the calls and emails have been pouring in to adopt these beautiful puppies.

Angel (top left), Beck (above) and Opie (left) were rescued from a high kill shelter in Rocky Mount, North Carolina. FERAL Volunteer Pam Armstrong arranged their transfer to us and drove to pick them up. All of them are gentle and loving dogs. Opie will finish his 2 week quarantine this week and be able to join the other puppies in the Puppy Room at the Adoption Center. Please spread the word about these sweeties.

Apollo (above) is one of 4 Spaniel mix puppies at the Adoption Center.
