

## UPDATE ON ROCKY/ Now MILLER:

I really cannot put to words how happy this "little" guy makes me. He is without a doubt the most obedient dog I have ever owned, I will walk outside and whistle (not even use his name) and he immediately comes running towards me. He will go towards Sid's food bowl, and all I have to say is "STOP" once and he'll stop dead in in tracks, he won't be happy about it—but he knows I'm the alpha.

I knew his paws were big when I got him, but I am absolutely in shock with his size. He's huge! But, that's ok because his behavior is perfect. He out grew my large breed dog crate about a week ago, since then he has been left in the house alone twice (each for about 2 hours) and didn't get into anything.

My niece and I play hide and seek with him, it is so cute. The first time I hid under a table and started calling his name, he paced at the end of the table looking for me—he was getting so exasperated. Finally, my niece had to show him where I was and he got more excited to see me than to eat his treat. :)

Photos below of Miller Awaiting a treat with two of his best friends, Bacchus (a 4 month old Lab/Huskie) and Thora (a 4 year old German Shepherd).

I really cannot thank you enough for Miller, I feel so blessed and honored that I was able to find him...he has brought so much joy and happiness to everyone he meets. - Emily

Dear Planned Pethood,

This past February, my boyfriend and I adopted a 4 month old lab mix puppy from your facility. Alonso, now named Marty grew so fast it's hard to believe he was only 11lbs when he adopted him and is now almost 50 lbs.

He has been such a delight in our lives and I thought I would share with you a current photo of him to let you know that your hard work has resulted in a happy home for Marty! Thank you for all you do!

Sincerely,  
Andrea Mendes

Hello Donna and Karin,  
I just wanted to let you know how pleased we have been with "Lucky" the past week. He has been a great puppy and is extremely smart. He is already basically housebroken. He already knows sit, down, turn left/right, shake, and we are working on stay, roll over, and walking on the leash! I just wanted to thank you for all your help during the adoption process and let you know how much I enjoyed the experience. It was one of the best facilities and set ups I have ever been to for adoption centers. I love the separate rooms for Kittens, cats, and puppies. It was great to interact with this whole litter before adopting so we could see personalities and behaviors. Because of that I really do believe we got the puppy that best suits us and our lifestyle. Thank you once again. Here are a few pictures for you to enjoy of his first week and first time out at the barn!

Sincerely,  
Laura Nolan
