

JUNE 2010 HAPPY TALES

We just wanted to let you know how Rorschach (Pennington) is doing. He is a happy, playful puppy. He is leash trained, mostly house broken, and has learned a few commands. Last vet visit he weighed a little over 37 pounds. We love him to death and he surely keeps us on our toes! Attached are a couple of pictures of our little boy.

Frances, Cecil and Rorschach Mullin

Transport Volunteer Elizabeth Little gives Aunt Bea a goodbye kiss.

New photo of Cookie's Pup Lorna

Lorna was one of the puppies born under a deck during the bitter January weather.

Pippi

Pippi came to the Humane Society after her owner turned her over to us in April. She is a one year old Beagle Mix. She was fostered by HS Volunteer Beth Phalen. Then Pippi was transferred to a rescue group in New Jersey and went

From Pippi's foster home in NJ:

I have to tell you I only had her for 2 days and wanted soooo bad to keep her myself, she is a wonderful loving dog. I really loved that little girl the minute I saw her.

She slept in our bed the first night like she was always with us and even my 2 dogs fell in love with her, she was the best foster I ever had and the easiest. She had so many applications in just 3 days of being posted and I found her a wonderful wonderful home where she is loved and has 2 brother dogs and 4 cats as friends, Beth told me she loved cats. She lives now on an acre of fenced in land and has her own doggie door and sleeps already on the bed with them too.

What a great job you all did with her at your place and Beth did in fostering her....Thanks so much for letting us find her a forever home, she deserved it. Heres a pic or 2 when she was with us and happy as a clam...Lisa

PS, if you have any other adults as wonderful as her, we can surely find them a great home here in NJ...

Clara (photo at right)

Just letting you know she is doing great. We love her so much.
