

We love Pixie so much. She has been so sweet. I'm amazed. She slept all night last night. We have her in the bathroom w/a baby gate and she goes right in and crawls into her doggie bed. She's a great dog already!

Thanks!
Stephanie Dowdy

Gravy (now named Sophie) is doing great! She slept the whole ride back to Charlottesville and is settling in nicely in her new home! I went to PetSmart yesterday and everyone was amazed at how adorable and well behaved she was! Not even a hundred pound Rotweiler could intimidate her! Not only that, but she's been able to do ALL of her "business" outside which is a definite plus--I've never heard of a puppy that could do such a thing! I haven't even had to use a single puppy pad (at least not yet that is...)! ?

I thought this picture was a cute one (even though they all pretty much are!). I'll send you more as they come!

Thanks again for everything and best of luck with the other little puppies!
